

United States Patents - R. Kemp Massengill:

10,820,349	Wireless message collision avoidance with high throughput
10,820,182	Wireless protocols for emergency message transmission
10,816,636	Autonomous vehicle localization system
10,816,635	Autonomous vehicle localization system
10,814,474	Identification and localization of mobile robots
10,713,950	Rapid wireless communication for vehicle collision mitigation
10,507,829	Systems and methods for hazard mitigation
10,059,335	Systems and methods for hazard mitigation
9,896,096	Systems and methods for hazard mitigation
9,701,307	Systems and methods for hazard mitigation
8,950,864	Brain dysfunction testing
8,035,377	Method for excluding magnetic objects from magnetic resonance imaging facility
7,315,166	Magnetic resonance imaging screening method and apparatus
7,295,107	Ferromagnetic detection pillar
7,239,223	Enhancement magnetizer for magnetic resonance imaging screening
7,239,134	Screening method and apparatus
7,106,056	Security screening method and apparatus
6,965,792	Susceptometers for foreign body detection
6,595,641	Device for examining ocular motility
6,592,222	Flicker and frequency doubling in virtual reality
6,496,713	Ferromagnetic foreign body detection with background canceling
6,464,694	Laser-assisted liposuction method and apparatus
6,439,941	Automated fail-safe sea rescue flotation system
6,418,335	Ferromagnetic foreign body detection using magnetics
6,386,706	Visual function testing with virtual retinal display
6,290,357	Kinetic visual field apparatus and method
6,145,991	Rule based visual field autointerpretation system
6,106,516	Laser-assisted liposuction method and apparatus
6,047,215	Method and apparatus for electromagnetically assisted liposuction
6,033,076	Visual field testing via telemedicine
6,027,217	Automated visual function testing via telemedicine
5,931,807	Microwave-assisted liposuction apparatus
5,910,834	Color on color visual field testing method and apparatus
5,898,474	Visual field testing method and apparatus
5,864,384	Visual field testing method and apparatus using virtual reality
5,842,986	Ferromagnetic foreign body screening method and apparatus
5,807,307	Multipiece ultrasonic probe for liposuction
5,514,086	Multipiece ultrasonic probe for liposuction
4,886,491	Liposuction procedure with ultrasonic probe
